HEAD[®]
SPORTSWEAR

SUMMER 2024

Versatility is one of the key components of the new Summer 24 collection.

High-performance outfits meet trendy, street-wear looks. Classic tennis colours are combined with high-fashion, on-trend tones. Functional materials feature alongside natural fabrics such as cotton or merino wool.

With the Summer 24 collection, we want to give HEAD customers the option of wearing that unmistakable HEAD look at any time of the night or day.

That starts of course with the centrepiece of our brand: tennis wear. But for padel, warm-up or the gym, too, we have the perfect outfit ready for you, with high-performance functional materials, seamless shirts and leggings, as well as cotton styles. Aside from sportswear, padded jackets, light knitwear and elegant fashion pieces feature once again in the collection.

We wish you plenty of fun exploring the new world of HEAD sportswear!

Roman Stepek
and the HEAD Sportswear team

PERFORMANCE

PERFORMANCE COLLECTION SUMMER 2024

In every fibre, this range resonates with our passion for tennis.

From outfits for Team HEAD athletes and performance-oriented styles, to a vintage capsule collection: the Performance Line has something for every tennis-lover.

Finely striped diagonal prints in soft tones switch things up in the wardrobe. The menswear combines classic navy and white with fashionable tones such as sun-yellow and pale blue. In the women's collection, outfits in trend colours such as punchy green and berry red will set the court ablaze.

The styles in the Play capsule collection combine sporty melanges with classic navy, royal blue and white as well as a mellow sage green and rose pink. Lengthwise-divided colour blocks and a large "Padel" letter print set new accents on the tennis or padel court.

A Vintage capsule collection was designed for all fans of the popular retro tennis look. It comprises knitted pieces, sweaters and tracksuits. The classic tennis colours of white and navy as well as design details such as a terry badge, cable-knit or oversized lettering characterise the look.

VISION COLLECTION SUMMER 2024

The Vision Line bounces on to the scene as dynamic and young.

In the women's collection, a leopard print - as a major feature or as a highlight - will draw every gaze. Bright green and royal blue unite with black. A rich berry hue and a soft pistachio tone comprise the fashion-forward colour palette. Sporty designs, such as extra-long tank tops for combining with leggings or tennis dresses with racer backs, define the ladies' Vision style.

The menswear plumps for a classic red and royal blue with black and fashion colours like bright red-orange and sunny yellow. These colours pop up in various prints in the form of trendy glitch and watercolour motifs on t-shirts and fade-out prints on shorts.

VISION

Our Club line is an evergreen that is now in its third season.

The women's line features feminine silhouettes and designs. Shirts with colour-contrasting inserts on the shoulders or track jackets with retro-inspired V-patterns define the Club look for women.

For men, large colour blocks and coloured accents on the shirt sleeves emphasise their sporty style. And of course the polished colour concept is carried on through. The key colours black, white, red, blue and navy are there as always, allowing the combination of different seasonal styles and ensuring maximum flexibility when putting together outfits.

CLUB

The Off Court Line takes the HEAD tennis spirit to the street.

Looks that reflect the sporting lifestyle at every hour of the night and day characterise the style of this multifaceted range. Casual unisex sweaters with tone-on-tone embroidered logos in the fashion colours of the Performance and Vision lines have what it takes to become the must-have pieces of the season. The matching sweat-shorts complement the shirts for the urban look.

Classic cotton tees, polo shirts with small piquée stand-up collars and lightly padded jackets complete the men's Off Court style. The ladies can combine the sporty cotton outfits with elegant oversized shirts, flowy palazzo pants, boxy knits and seamless tops as well as biker shorts and leggings with a decorative fabric structure in light beige, navy and white.

TECHNOLOGIES

MOISTURE TRANSFER MICROFIBRE

These high-performing microfibres move sweat to the surface of the material where it is efficiently removed. This brings a cooling effect and allows the material to dry quickly. MXM is at its most effective when worn directly on the skin.

TAPED SEAMS

Seams are a weak point on clothing where moisture and wind can penetrate. That is why the seams on the inside of our products are sealed with tape. This tape is machine-welded onto the seam and closes it completely. We make a distinction between "fully seam taping", where all seams are closed, and "critical seam taping", where only seams that are in critical places, such as the shoulder area, are closed.

100 % PFC FREE

Textiles in the outdoor sector are treated with a chemical finish (durable water repellency - DWR) to make them water- and oil-repellent. Fluorocarbon compounds, which are also called per- or polyfluorinated chemicals (PFCs), are usually used for this purpose. These chemicals are controversial because of their harmfulness to both human health and the environment. At HEAD Sportswear, we are striving to convert all fabrics treated with DWR to become PFC-free in the long term. This enables us to protect people and the environment.

ORGANIC COTTON

All our products marked with the Organic Cotton Icon are made from organically grown cotton. This means that synthetic pesticides are avoided and the consumption of energy and water used in the production process is minimised.

FOOTWEAR

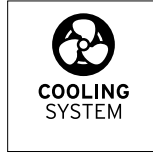

FOOTWEAR TECHNOLOGIES

COMFORT

ORTHOLITE®

With its innovative long-term cushioning, and lightweight, highly breathable foam, the OrthoLite® insole enhances comfort on and off the court. The moisture management helps to keep the foot cool, dry and comfortable. On top of that, the insole is machine-washable.

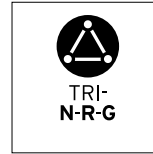

HEAD COOLING SYSTEM

Perforations in the outsole, midsole and sock-liner ensure great ventilation in the bottom of the shoe. Also includes a breathable upper mesh material that provides optimal cooling.

SOCK SUPPORT SYSTEM

Fully integrated elastic sock construction for initial comfort and better support.

HEAD TRI-NRG

HEAD's complete support technology. First, NRG Neutralizes impact in the heel area, then it is Rigid in the midfoot area for excellent torsional support properties and densities in each area of the shoe are key elements in this HEAD footwear technology.

DYNAFOAM

Created with small air cells, this highly responsive, lightweight midsole offers exceptional comfort and lasts longer than conventional EVA midsoles.

STABILITY

DELTA STRAP

Triangle shaped midfoot straps are integrated into the lacing for best stability and an individual fit.

HEAD LATERAL CONTROL+

Reinforced sidewall for outstanding lateral stability which also helps to prevent rolling over during more extreme moves.

HEAD LATERAL CONTROL

HEAD includes additional lateral stability on all our top performance shoes to help avoid rolling over during extreme slides.

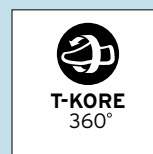

HEAD LOCKDOWN STRAP

Midfoot straps integrated into the lacing system keep your foot in place.

HEAD HEEL STABILIZER 180°

TPU Brace that wraps around the heel for best fit and support.

HEAD T-KORE 360°

Highlighted by the shoe's design, HEAD T-KORE 360° brings together the performance technologies that ambitious players need. The innovations give your shoe a core strength, with enhanced stability, abrasion resistance and torsional support.

DURABILITY

HEAD HYBRASION+

A special rubber compound developed for padel shoes. Guarantees the best traction for all court surfaces while still providing excellent durability for players who slide a lot.

HEAD HYBRASION

Non-Marking rubber compound that provides good grip and offers great durability on all surfaces.

SUPERFABRIC®

Extremely abrasion resistant and at the same time really flexible upper material.

HEAD DRIFT DEFENSE

In order to have a complete durable shoe, the upper of a padel shoe needs to be durable as well, especially around the toe and medial forefoot area. HEAD uses an abrasion resistant rubber or a TPU layer in the Drift Defence technology to protect this area during aggressive toe drags.

SPRINT PRO 3.5 SF

Upgraded with the radical SuperFabric® material this shoe mixes lightweight performance with extraordinary durability.

UPPER

High abrasion resistant SuperFabric vamp material
 Sock construction
 Triangle lacing strap
 TPU heel counter

MIDSOLE

Low-to-the-ground
 Minimal heel-to-toe offset
 Three EVA densities
 Ventilated 3D-anti torsion shank
